NEW GEN 10" iDISPLAY

UIT410B-C19

The iDISPLAY Tablet 10.1" is the affordable point of entry into the world of interactive retail experiences, designed to fit any retail format or location. iDISPLAY is a fully interactive commercial display that uses capacitive touch, built in WiFi and LAN, and a host of integrated features that work in either landscape or portrait format. Powered by Pulse technology and the Android operating system, this modern display is the ultimate plug and play retail solution. Easily integrated with existing CMS software, iDISPLAY can be remotely updated, acting as a sustainable and accessible upgrade to traditional print marketing, and providing opportunities for adaptable marketing messages.

KEY FEATURES
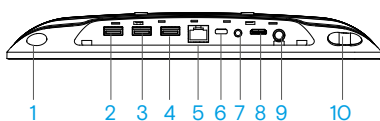

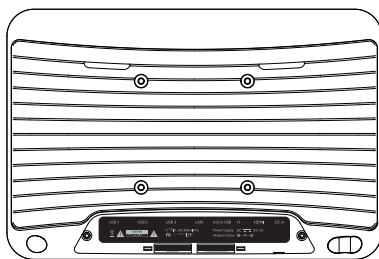

LANDSCAPE OR PORTRAIT FORMAT

Adaptable to showcase custom content, iDISPLAY can be used to feature content in either landscape or portrait views.
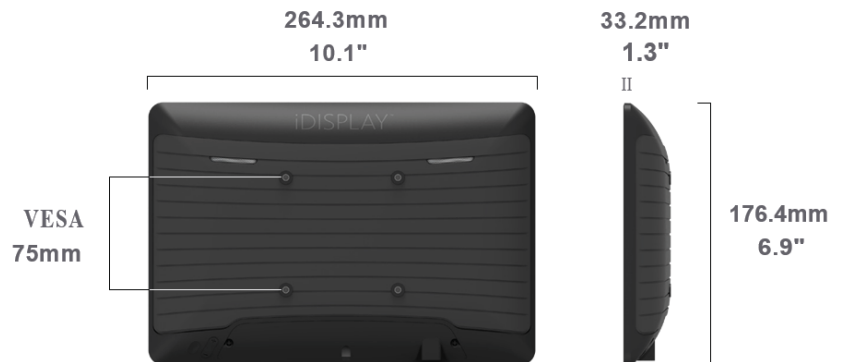

Wi-Fi and LAN

iDISPLAY Tablets are equipped with embedded Wi-Fi and the option to connect to a LAN/Ethernet connection, which enables remote content on multiple devices.
